28 July 1967

MEMORANDUM FOR THE RECORD

Morning Meeting of 28 July 1967

ADD/I gave the Director a finished memorandum rounding up the Soviet air show in July.

ADD/I noted that we have been coordinating with DIA on a memorandum summarizing the level of Soviet-North Vietnamese trade and aid for 1966. The figure on ammunition has been the principal sticking point. DIA has now sent out a new figure to CINCPAC, etc., for comment, and we should have an agreed piece by mid-August.

ADD/I invited the Director's attention to an article on the international oil situation in the current issue of the Weekly Review.

Godfrey noted that the USSR will be increasing its Mediterranean fleet by ten units, but we do not know how many of these will be replacements.

DD/S said that he has been examining the reliability of the personnel testing results and that he now intends to validate them further by studying the CT program from 1957 onward. The study will take a year and will require the assistance of the directorates.

George Allen for Carver called attention to the publication today of a study of the Viet Cong security services. He considered it a job of thorough research, interdepartmentally coordinated, and based in the main on captured documents.

Warner reported that the hearings before the Immigration Subcommittee on the Rodino bill concerning the radios went smoothly.

DD/S&T briefed the Director on Jim Webb's testimony on the Hill concerning the Soviet space program. He noted that we will be briefing Webb this morning on the Soviet air show.
